CALYPSO IN ARUBA

Calypso to many of us here in Aruba is considered only as Carnival Music. D.J.'s were even asked not to play this type of music during the Christmas Season. I guess they never heard or experienced a Soca Caribbean Xmas. To many Aruban residents, Calypso holds an important space in our lives and our Caribbean heritage.

Therefore on behalf of all Soca/Calypso lovers I am asking the Calypso and Road-march Contest participants, to give Calypso as part of our culture more respect and invest more time in the preparation of their renditions.

A Calypso rendition is more than giving a show. It must be a Sweet Coordination Of Lyr-

ics And Rhythm. A song with a Message Well Articulated.

After congratulating Mighty Talent and Singing Olivia on their well deserved victory I'll continue with the following:

Every year (and this year again) singers who Have Not Even Presented Calypsos in Accordance with Calypso Standards Classify. These finalists are usually singers of popular bands who are simply benefitting from their former successful performance or fame.

This is Very Demotivating for the future promising calypsonians.

Unless fairness and equal opportunities are applied our Calypso will keep deteriorating and eventually die a slow death as far as Quality Is Concerned.

Recommendations Are: 1. For Asoma/Sac to re-introduce pre-selections; 2. For Asoma to organiza Clinics annually to encourage and assist participants and at the same time help improve hidden natural talents; 3. Introduce One Band System; 4. For carnival groups and other organizations to organiza Calypso and Soca Song Festivals to promote this kind of music at all levels at the highest levels.

Sylvia Godett,
Juliana v. Stolbergstr. 8
